Analytics to Insights Framework

Transform raw data into decision-driving intelligence with this proven system.

Promotora Systems Inc.

From Strategy to Success: Tools That Drive Results, Not Just Insights

Instructions

This framework guides your team through the process of moving from raw data to actionable insights. It ensures that analysis doesn't stop at reporting but drives real business decisions. Use it to standardize your analytics process and close the gap between data and strategy.

Step 1: Collect

Gather raw data from systems, operations, and customer interactions.

Step 2: Clean & Structure

Ensure data quality by removing duplicates, errors, and standardizing formats.

Step 3: Analyze

Apply descriptive, diagnostic, and predictive analytics to uncover patterns.

Step 4: Interpret

Translate findings into business context and evaluate significance.

Step 5: Recommend

Turn insights into recommended actions tied to KPIs and goals.

Step 6: Act & Monitor

Implement decisions, track outcomes, and feed learnings back into the system.

Analytics to Insights Framework

Stage	Key Activities	Tools/Techniques	Owner	Output
Collect	Gather raw data from multiple sources	APIs, CRM, ERP		Data Repository
Clean & Structure	Standardize, validate, and prepare data	ETL, SQL, Data Prep Tools		Usable Dataset
Analyze	Run descriptive & predictive models	BI Tools, Python/R, ML		Patterns & Findings
Interpret	Link results to business context	Storytelling, Domain Expertise		Insights
Recommend	Propose specific actions	Decision Frameworks, KPIs		Recommendations
Act & Monitor	Implement and measure results	Dashboards, KPIs, Feedback Loops		Improved Outcomes

Insights Tracker

Data Source	Insight Generated	Business Impact	Decision Made	Owner
